William Blair SICAV Emerging Markets Small Cap Growth Fund

OBJECTIVE

Capital Appreciation

CHARACTERISTICS

The Fund seeks to invest in emerging markets small cap companies with superior quality and growth characteristics relative to competitors.

WHY CONSIDER THIS FUND?

- Reflects a long history of identifying undiscovered small companies with strong management teams and unique capabilities
- Consumer-focused, reflecting the secular growth opportunity in developing economies
- Employs dedicated small cap analysts to ensure coverage of expanding opportunity set
- Managed by a seasoned team with decades of emerging markets experience
- The Fund is actively managed and is not constrained by a benchmark

RISKS

- The value of shares can increase or decrease and an investor may not get back the amount originally invested
- Where investments are made in currencies other than an investor's base currency, the value of those investments will be affected (favourably or unfavourably) by movements in exchange rates
- Emerging markets investments typically involve special risk considerations, including higher volatility, lower liquidity, economic and political risk
- Smaller companies may be more adversely affected by poor economic or market conditions, and may be traded in low volumes, which may increase volatility and liquidity risks

Past performance is not necessarily a guide to future performance. Returns for periods of one year or more are annualized. All charges and fees, except any entry, exit and switching charge, have been taken into account in calculating the Fund's performance. Returns for other share classes will differ from those shown above. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than the original cost. Levels and bases for taxation may change. For the most current month-end performance information, please visit our web site at sicav.williamblair.com.

¹ The MSCI Emerging Markets Small Cap Index (net) is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of small cap companies in emerging markets. This series approximates the minimum possible dividend reinvestment. For more information on the index, please visit the website at www.msci.com.

² Top ten holdings are shown as % of total net assets. Sector and market cap diversification exclude cash equivalents. Sector diversification calculated by William Blair based on Global Industry Classification Sectors (GICS). Market capitalization and geographic distribution are calculated by William Blair. Weights shown are percentages of total net assets. Sector weights may vary over time as benchmark index weights shift.

³ Information about the Fund's holdings should not be considered investment advice. There is no guarantee that the Fund will continue to hold any one particular security or stay invested in any one particular sector. Holdings are subject to change at any time.

* These amounts are calculated using float-adjusted market capitalizations.
