Please be advised that any return estimates or indications of past performance on this document are for information purposes only. Returns for periods of one year or more are annualized. All charges and fees, except any entry, exit and switching charge, have been taken into account in calculating the Fund's performance. Past performance is not necessarily a guide to future performance and no assurance can be made that the profits will be achieved or that substantial losses will not be incurred. The value of shares and any income from them can increase or decrease. An investor may not get back the amount originally invested. Where investment is made in currencies other than the investor's base currency, the value of those investments, and any income from them, will be affected by movements in exchange rates. This effect could be unfavourable as well as favourable. Levels and bases for taxation may change. Further specific risks may arise in relation to specific investments and you should review the risk factors very carefully before investing. Intended risk profile of the Fund may change overtime. The Fund is designed for long-term investors. For the most current month-end performance information, please visit our web site at sicav.williamblair.com.

The investments in the Fund may not be suitable for all recipients. This document does not contain personalized recommendations or advice and is not intended to substitute any professional advice on investment in financial products. This document is not intended to be made available to any person in any jurisdiction where doing so would result in contravention of any laws or regulations applicable to the recipient. The Fund is currently registered for public offering only in Austria, Denmark, Finland, France, Germany, Ireland, Luxembourg, Norway, Sweden, Switzerland and the UK. Therefore the Fund may not be registered to be marketed in or may only be marketed to certain categories of investors in your jurisdiction.

¹ The MSCI All Country World IMI Index (net) is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. This series approximates the minimum possible dividend reinvestment. For more information on the index, please visit the website at www.msci.com.

² Top ten holdings are shown as % of total net assets. Sector, Market Cap and Geographic Diversification charts show % of investments for the Fund and its benchmark Index and exclude cash equivalents.

³ Information about the Fund's holdings should not be considered investment advice. There is no guarantee that the Fund will continue to hold any one particular security or stay invested in any one particular sector. Holdings are subject to change at any time.

* These amounts are calculated using float-adjusted market capitalizations.
