William Blair SICAV China A-Shares Growth Fund

OBJECTIVE

Capital appreciation

CHARACTERISTICS

The Fund seeks to invest in A-Shares of Chinese companies that exhibit consistent profitability and growth, better-than-peer balance sheets, and reasonable valuations

WHY CONSIDER THIS FUND?

- Provides access to domestic growth opportunities in China through investments in high-quality growth companies
- Provides exposure to China A-Shares across the spectrum of market capitalizations
- Provides significant diversification potential to global investors, since the China A-Share market is uncorrelated, under-researched, and inefficient
- Managed by a seasoned team with a history of managing China A-Shares and a local presence on the ground in China
- The Fund is actively managed and is not constrained by a benchmark

RISKS

- The value of shares can increase or decrease and an investor may not get back the amount originally invested
- Where investments are made in currencies other than an investor's base currency, the value of those investments will be affected (favourably or unfavourably) by movements in exchange rates
- Emerging markets investments typically involve special risk considerations, including higher volatility, lower liquidity, economic and political risk
- The Fund focuses its investments in China and will have greater exposure to the market, political and economic risks of that country than if it was more diversified across a number of countries
- Investments through the Stock Connect may be subject to additional risks, including regulatory, liquidity, operational, clearing, settlement, market suspension, custody and quota limitation risks

Past performance is not necessarily a guide to future performance. Returns for periods of one year or more are annualized. All charges and fees, except any entry, exit and switching charge, have been taken into account in calculating the Fund's performance. Returns for other share classes will differ from those shown above. The investment return and principal value of an investment in the Fund will fluctuate so that shares, on any given day or when redeemed, may be worth more or less than the original cost. Levels and bases for taxation may change. For the most current month-end performance information, please visit our web site at sicav.williamblair.com.
